

Name: _____ Date: _____

Ancient Roman Math

Directions: Look at each Roman Numeral problem carefully and solve to find the correct answer.

1. $M + V =$ _____

2. $D + C + X =$ _____

3. $L + V + V + II =$ _____

4. $CX + XII =$ _____

5. $MD + VIII =$ _____

6. $DL + X + V =$ _____

7. $M - D =$ _____

8. $XV - VI =$ _____

9. $M \div C =$ _____

10. $D \div X =$ _____

11. $C - XVI =$ _____

12. $MD \div XV =$ _____

13. $M + DX + IV =$ _____

Answer Key

Ancient Roman Math

Directions: Look at each Roman Numeral problem carefully and solve to find the correct answer.

1. $M + V =$ **1,005**

2. $D + C + X =$ **610**

3. $L + V + V + II =$ **62**

4. $CX + XII =$ **122**

5. $MD + VIII =$ **1,508**

6. $DL + X + V =$ **565**

7. $M - D =$ **500**

8. $XV - VI =$ **9**

9. $M \div C =$ **10**

10. $D \div X =$ **50**

11. $C - XVI =$ **84**

12. $MD \div XV =$ **100**

13. $M + DX + IV =$ **1,514**
